

RADIATION Absorption Test Results

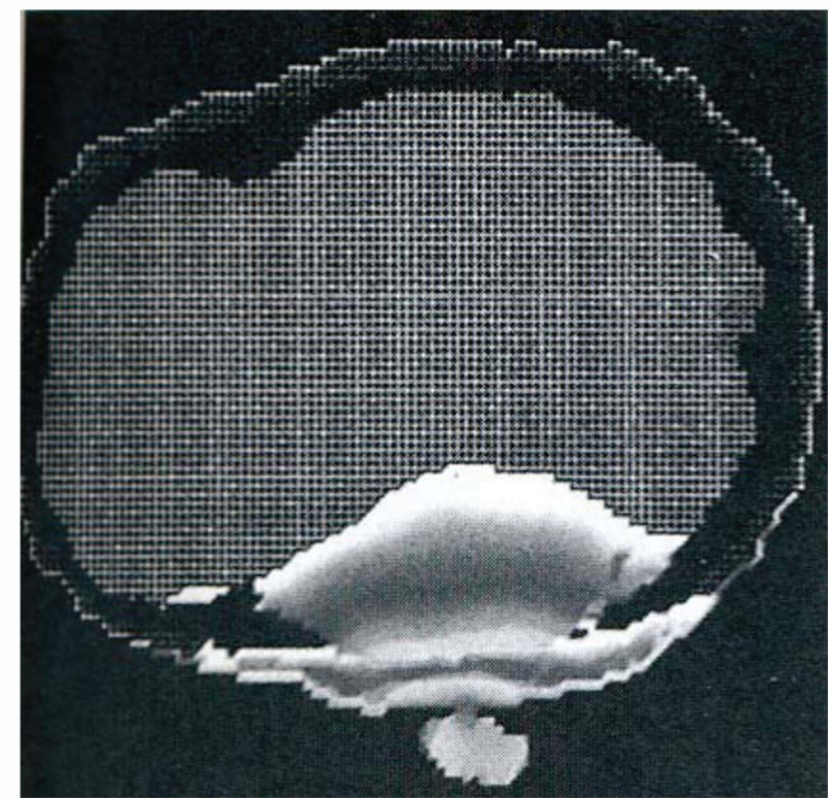

CELL PHONE RADIATION PENETRATION

5 year-old child

10 year-old child

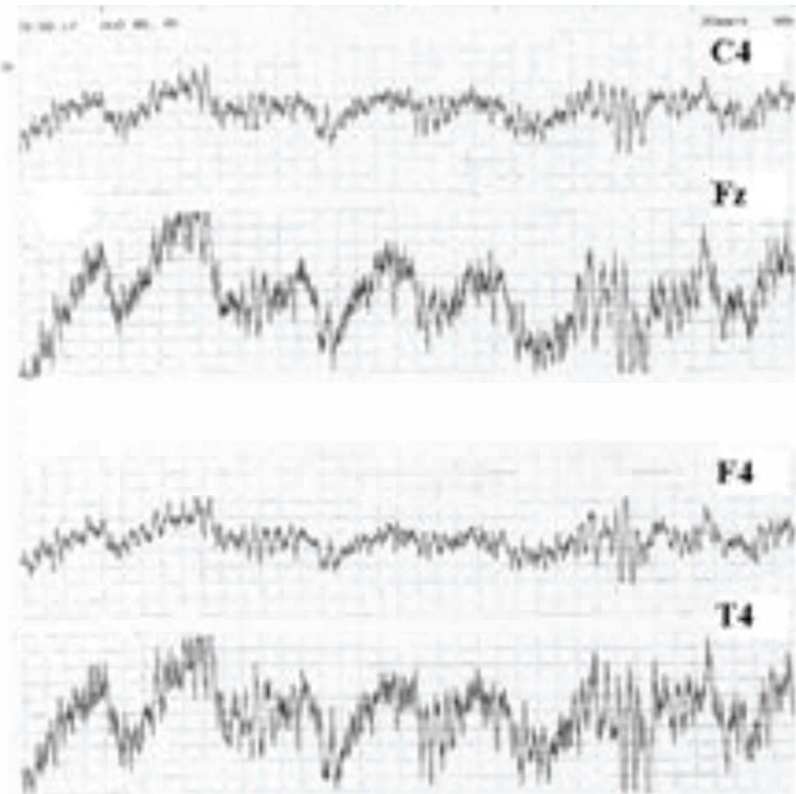

Adult

Gandhi, O.P.G. Lazzi, and C.M. Furse, *Electromagnetic Absorption in the Human Head and Neck for Cell Telephones at 835 and 1900 MHz*. IEEE Transactions on Microwave Theory and Techniques, 1996. 44(10): p. 1884-1897

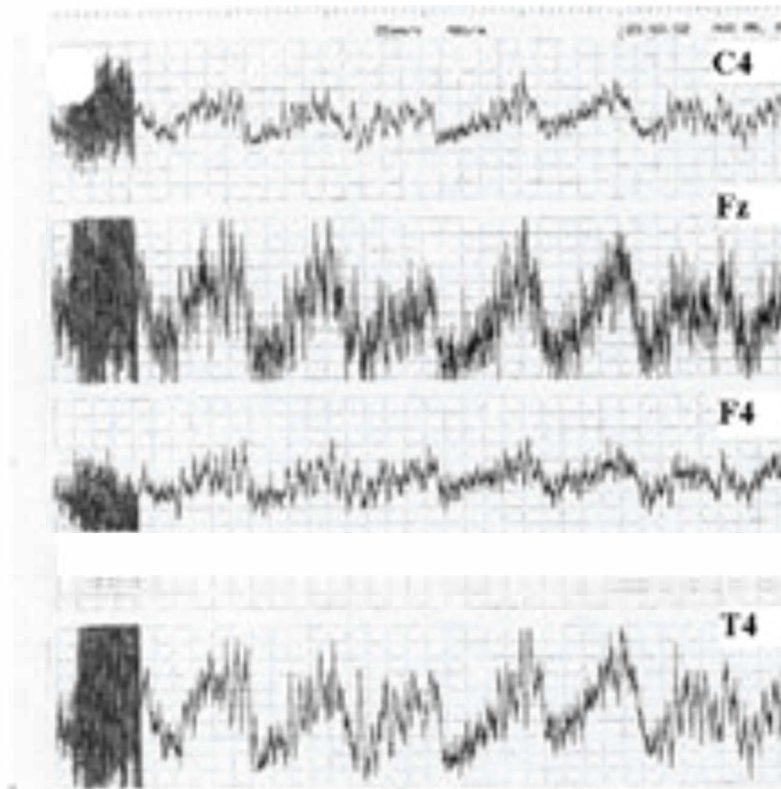

TECHNOLOGY TEST RESULTS

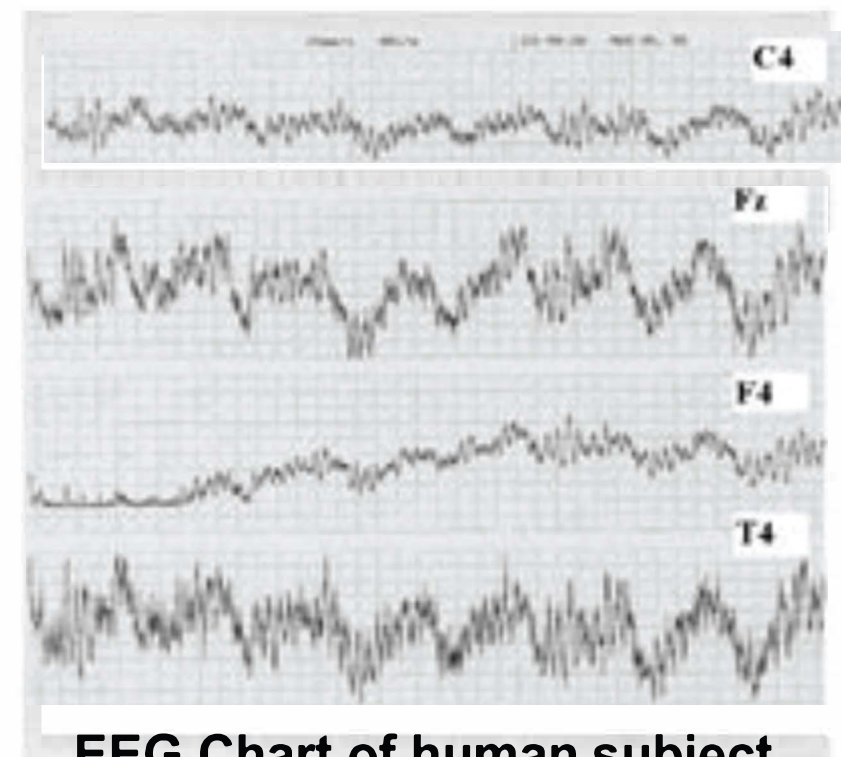

EEG TEST RESULTS

Control EEG Chart of human subject not introduced to Cell phone EMR

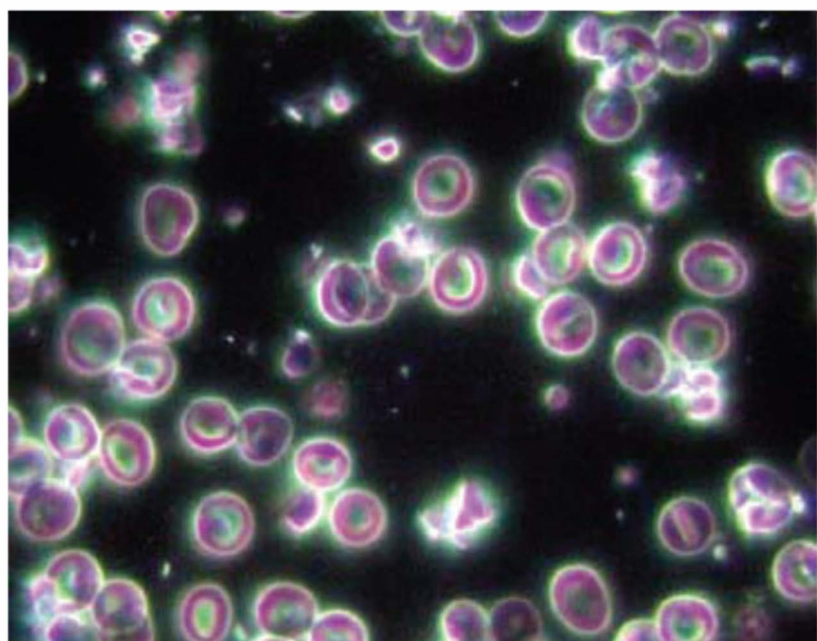

Subject introduced to Cell phone EMR without any protection

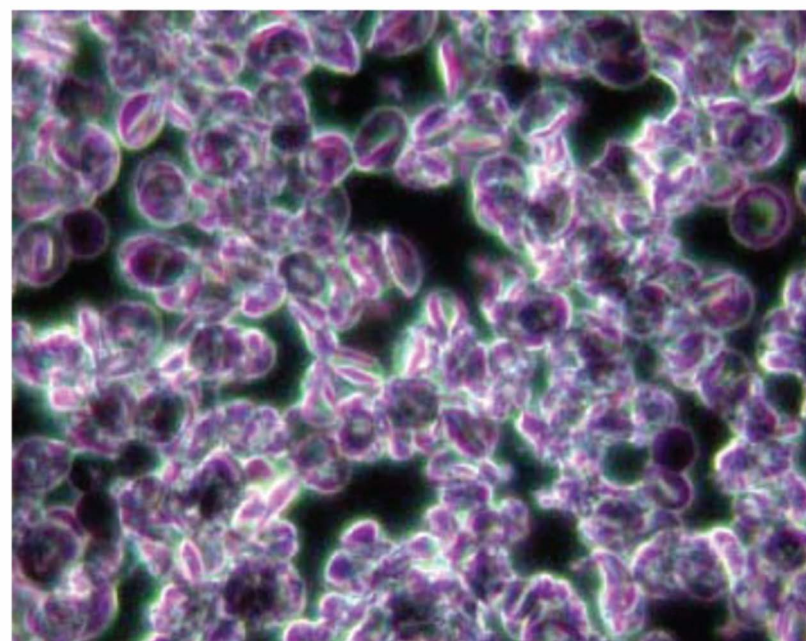

EEG Chart of human subject introduced to Cell phone EMR with Gia Cell Guard

The EEG tests were conducted at the laboratory of SA Biomedical Instrumentation Company, California

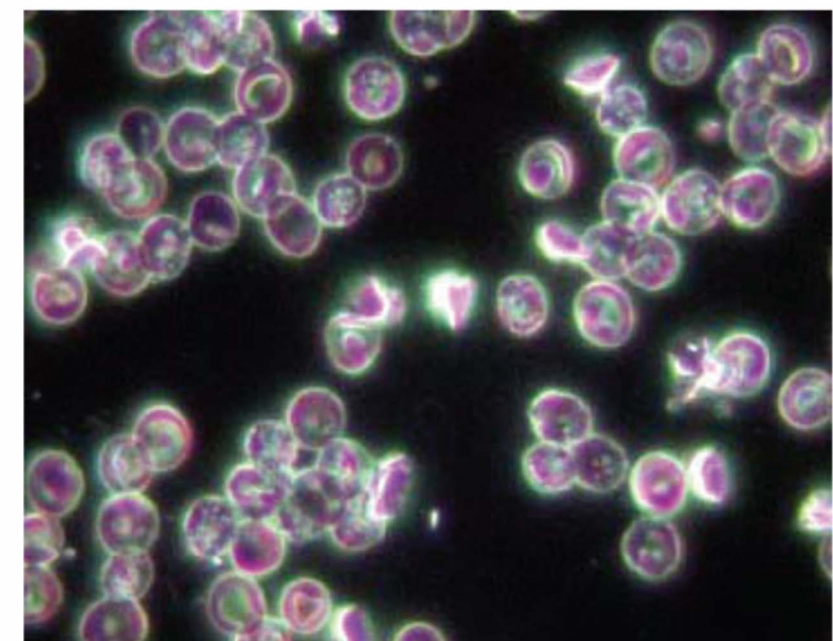

BLOOD MICROSCOPY TEST RESULTS

Control blood test of human subject not exposed to Electromagnetic Radiation (EMR)

Blood test of human subject exposed to EMR generated by cell phone without GIA Cell Guard

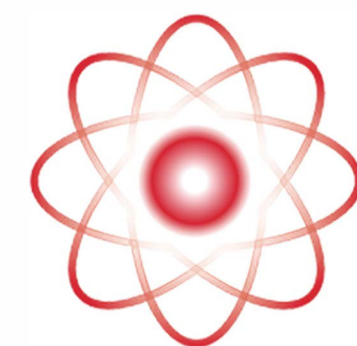

Blood test of human subject exposed to EMR generated by cell phone with GIA Cell Guard

Enjoy your communications ... without the radiation effects. Please visit:
