

Earth Ion Pyramid Whole Room Purifier

Raise the healthy, happy vibrations of a room while helping to re-harmonize and clear non-beneficial energies of ... electronics – stress – worry – grumpy people – fear – synthetics & more

Never runs out of Energy
Completely maintenance-free
Just make sure the point is always UP

Made of VibesUP Earth Energy Formula which contains black tourmaline, red jasper, green aventurine, smokey quartz, tigers eye carnelian, amazonite amethyst, zeolite & other gemstones and over 80 plant & tree oils known for natural health support, gentle energy, grounding, pain support, protection, neutralizing, negativity, EMF neutralizing and more !

This Puffy Crystals Technology amplifies the conductivity and strength of the Earth Energy material. It creates tiny bridges for the energy to move through the base of our Earth Mat material, making it stronger energetically and flowing out all sides. It compresses the tiny quartz spheres to amplify the piezo electricity.

The mystery of a Pyramid's beneficial energy is in its funnel-like shape which literally helps to funnel healthy grounding earth energy up into its environment. This “sacred geometry” shape combined with VibesUP formula that has been tested and shown to take a room with low draining energy which measured a -1 up to a very healthy energy of 12+ which is wonderful considering a healthy energy for a room is a 10 ... 12+ is even better! This shape combined with VibesUP formula literally breathes the non-beneficial energy in (magnetic), re-harmonizes it and breathes it back out again (electro). This moving energy in and out, helps to gently clear the non-beneficial energy of a room on a continual basis without having to plug it in, monitor it, or even change filters. It requires no maintenance, and never stops working.

Size ... A small Earth Ion Pyramid can compare to the size of a lemon, a medium Earth Ion Pyramid compares in size to an orange and the large Earth Ion Pyramid compares to a grapefruit. To give you an idea the large pyramid weighs about the same as a large mat.

Small ... 2x2 inches – (bathroom)
Medium ... 3x3 inches – (bedroom) *shown above*
Large ... 4x4 inches – (living room) *shown above*
